Emily Zytkiewicz is the recipient of the University League, Inc. Adult Student Scholarship. Emily was awarded this scholarship at The Celebration of Outstanding Adult Student’s Scholarships and Awards on April 29, 2014. Emily was guided by her own curiosity into the field of biochemistry. However, without someone to encourage those good intentions, it can be difficult to stay focused. When Emily finished high school, no one urged her to go on despite her high achievement and scholarship. “No one ever talked to me about going to college. I didn’t know how to manage it.” So she decided to pursue employment, marriage, and a family until years later when life circumstances led her back to school. Now, divorced and with two little boys in tow, Emily is finishing her undergraduate degree, energized by the opportunity to pursue independent research in biochemistry. Congratulations to Emily on this scholarship!
